Gute Chemie. Connects.
What do you think of when you hear the expression ‘Gute Chemie’? Does it make you think of top-quality products or people that understand each other really well? Since we set up our company in 1987, we have consistently attempted to combine both. We offer Gute Chemie in the form of more than 300,000 specialty chemicals that we supply to major pharmaceuticals and chemical companies. And we also provide Gute Chemie in terms of our personal service coupled with an extensive network that links our customers, suppliers and partners all around the world. With this brochure, we would like to invite you to experience all the aspects of Gute Chemie.

Dr. Jan Schuricht | Managing Director
Gute Chemie.
Products and Services – all from a single source.
