

Advanced Ceramic Powders

Gute Chemie connects.

H.C. Starck STC–Höganäs Advanced Ceramic Powders

Höganäs

H.C. Starck

For more than 18 years, abcr has been the exclusive partner in small quantities supply of high performance ceramics from H.C. Starck's Surface Technology and Ceramic Powder Division (STC), now part of the Höganäs Group. We supply individual units adjusted to your R&D and production process worldwide from our warehouse. abcr has taken over the order and distribution responsibilities for quantities of 100 grams up to 100 kilograms worldwide.

abcr Gute Chemie – since our foundation in 1987 – has meant for us: good products and people who provide good services. We also supply Gute Chemie with more than 300,000 specialty chemical products, such as H.C. Starck STC's ceramic powders.

Our broad powder portfolio

- **Borides:** LaB_6 · SiB_6 · TiB_2 · ZrB_2
- **Boron:** amorphous + crystalline
- **Carbides:** B_4C · Cr_3C_2 · Beta-SiC · TiC · ZrC
- **Nitrides:** AlN · BN · Si_3N_4 · TiN · Ti(C,N)
- **Silicides:** MoSi_2
- **Oxides:** Y_2O_3

- Small quantities from a few 100 grams up to 100 kg available from abcr stock
- Orders placed directly via webshop abcr.de, shipments sent to your address without intermediate storage
- No minimum order value, you will be charged only for the quantity you order
- Material shipments include the H.C. Starck STC Certificate of Analysis and MSDS
- Short delivery times, **typically within 1 - 2 days**, ex works, shipped with high delivery reliability
- Payment possible by bank transfer and credit card (Visa, Master Card)
- The H.C. Starck STC–Höganäs Technical Service will continue to be at your disposal

Thank you for your interest in H.C. Starck STC products from abcr.
